

Introduction

Getting Started

Diagram of Noise Terminator 3

- A Transponder. Picks up the sound vibrations from your throat.
- B Earphone speaker for acoustic coil earphone.

- C Earplug earphone. Users can choose to upgrade to an ear contour earpiece (please see accessories section for more information).
- D Dinn plug. Choose the correct connector plug for your radio
- E External PTT connector.

Your NT3 comes along with a splitter or detachable PTT, which will add to the flexibility of use. The splitter can be set up as follows:

Diagram of NT3 Splitter

- * Attach your NT3 to the splitter at point F.
- ** If you plan to use the PTT switch (G), attach the appropriate radio pin to H. Then plug the other end into the radio and the

Troubleshooting

Problem	Solution
<i>Cannot transmit</i>	<ul style="list-style-type: none"> - Check that the cellular phone or two way radio is turned on and has power e Phone plug or two way radio plug may not be fully inserted into the radio - PTT button (for two way radios) may not be fully depressed o Transponders may not be flushed against your neck - Shared radio channel may be in use.
<i>Cannot Receive</i>	<ul style="list-style-type: none"> - Check that your cellular phone or two way radio is turned on and has power - Two way radios may not be on the same frequencies - The volume on the phone may be set too low - Cellular phone or two way radio plug may not be fully inserted into the radio - PTT button on your headset or radio may still be inadvertently depressed

Congratulations on your purchase of the NT3. The NT3 offers our new Gen 3.0 transponder and various adaptors and additional plug-ins. The NT3 is our best sounding and most versatile throat mic while retaining the unique proposition of an acoustic coil earphone and the practical benefits of the NT2.

Product registration is an important step toward enjoying your new Noise Terminator. Registering is required for warranty coverage. To register online, please visit www.iasus-concepts.com/registration.html Please retain your original dated sales document receipt for your records. For warranty service of your, you will need to provide a copy of your dated sales receipt to confirm warranty status.

NT3 is ready for use. Press the PTT for transmission
 *** If you plan to use VOX function, attach the appropriate radio pin to i. Then plug the other end into the radio and the NT3 is ready for use. Simply speak for transmission. Please note that your radio must have VOX function and the radio should be set to VOX mode.

Using your NT3

The NT3 is a headset that does not require any installation or special attachments. The default transmission mode for the NT3 is VOX. Simply plug the headset into your cellular phone or two way radio and position the transponders flush on your neck. (Due to the variance in human anatomy, the position of the transponders may require adjustment for maximum performance.) Place the earphone in your ear and the NT3 is operational. With your radio set to VOX mode, simply start talking to start the transmission.

Using Remote PTT

This NT3 comes with a detachable PTT. For times when you want more control of your transmission, you can use the detachable in-glove finger PTT. Just connect the dinn plug of the NT3 with that of the detachable PTT. Insert the radio connector into the detachable PTT and insert the other end into your radio.

When you want to transmit, simply press the PTT button. Note that the VOX function is disabled as soon as the detachable PTT is attached.

Use and Care

For optimal voice quality when using the NT3, we suggest placing the transponders about 0.5 -1 inch on either side of your larynx/voice box. However, the optimal position on the neck to place the NT3 will vary between individual users. Therefore, each user is encouraged to find his or her optimal position using the adjustable strap.

While the Noise Terminator is highly water resistant, it is not waterproof. Do not immerse it in water. Diagram of throat mic on neck

Caution

The transponder is highly sensitive. Do not press against the inside face of the transponder.

Do not operate your two way radio at high audio volumes when using the NT3. Hearing experts advise against the continuous high volume operation. If you experience ringing in your ears, discontinue using the NT3.

You may be out of range or obstructed by other objects or other communicators. Change your location or frequencies.

Transmission is weak - Batteries on your cellular phone or radio may be weak

Transponders may not be flushed against your neck.

Reception is weak - Batteries on your cellular phone or radio may be weak

Volume dial on the headset PTT or on your cellular phone or radio may be set too low.

Cellular phone or two way radio plug may be loose

Plug will not fit - The particular model of the Noise Terminator may not be compatible with your cellular phone or radio. Please check with your IASUS website.

Vox does not work - The particular model of the Noise Terminator may not have been designed to work with

even if your radio has this function.

For more help on troubleshooting, please contact your IASUS Concepts dealer or with the IASUS Concepts website.

One Year Limited Warranty

What this warranty covers

IASUS Concepts Limited warrants that the Noise Terminator sold by IASUS Concepts or its authorized agents are free from defects in materials and workmanship under normal use for one year. This warranty is only applicable to the original purchaser of the Noise Terminator, when accompanied by a dated sales document receipt and the name of the company from which it was purchased. This warranty is in lieu of and excludes all other warranties, expressed or implied, including any implied warranty of merchantability or fitness, and of any other obligation on the part of IASUS Concepts Limited.

What IASUS Concepts will do to correct warranty problems

At our discretion, we will repair or replace the product. We may use functionally equivalent reconditioned/refurbished/pre-owned or new products or parts.

To get warranty service

Please contact our customer service department via our website. Once you have done so, you will receive instructions on how to ship the products to IASUS Concepts or our designated resource. If instructed to ship the product, you must ship them with freight, duties, and insurance prepaid. Regardless of where you are instructed to ship your product, you must include: » A copy of your dated sales document receipt • A written description of the problem » Your name, address, and contact details 0 Payment for any services or repairs not covered by the warranty. This should have been predetermined with your customer service representative.

RETAIN YOUR ORIGINAL PROOF OF PURCHASE

For products we ask you to ship to us, we will ship repaired or replacement products at our expense for the freight and insurance, but at your expense for any duties.

What this warranty does not cover

Damage from improper operation, misuse, neglect such as dropping the product onto hard surfaces, contact with extreme humidity or heat, or acts of nature (lightning, floods, power surges etc)

Products that may have been tested, adjusted, installed, maintained, repaired or altered in any way by persons not

expressly approved by IASUS Concepts Limited. Any of these voids the warranty

Coil cords that are stretched.

Products purchased more than 12 months from the current date.

Products that are not accompanied by a valid proof of purchase.

Legal Information

There is no informal dispute settlement mechanism available.

This warranty gives you specific legal rights, and you may also have other rights, which vary geographically. Some areas do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusions or limitations or consequential damages, so the above limitations or exclusions may not apply to you.

IASUS Concepts shall not be liable for any special or consequential damages or for loss or expense directly or indirectly arising from use of the product or in inability to use the product in combination with other equipment or from any other cause. IASUS Concepts reserves the right to make changes in the design of the product and to make additions or improvements to it without incurring any obligation to modify any products previously sold.
